

PROFILE ABILITY AND EXPERIENCE

<http://ghsvina.com>

The background of the slide features a wide-angle photograph of a massive industrial facility, likely a chemical plant or refinery. The scene is dominated by a complex network of pipes in various colors—blue, red, yellow, green, and white—ranging from small tubes to large-diameter main lines. These pipes are mounted on a steel framework that spans the entire height of the image. In the foreground, there's a long, straight walkway leading towards the back of the facility. On either side of this walkway, there are rows of industrial equipment, including large tanks and what appear to be processing units. The lighting is bright, coming from overhead industrial lights, which creates strong shadows and highlights the metallic surfaces of the pipes and structures.

About us

All we do - Best for you

GHS Vina Co., Ltd was established in 2010. It covers an area of 2,300 square meters and 100 staffs. During the long term of overseas market development and continuous process of upgrading the product, the company's business has been successfully building out a stable, young and creative, and entrepreneurial spirit of professional technical and business management team.

The company is mainly becoming the professional manufacture for different types of air dryers and air compressors, screw vacuum pump, oil free screw blower, nitrogen generator, cooling tower and water pump... Company products are widely used in industries including the machinery, light industry, textile, food, petroleum, chemical industry, metallurgy, mining, electric power, water station, urban construction, medical research, and national defense scientific research, and so on.

GHS Vina Co., Ltd will use "All we do – best for you" as company core values. We are willing to genuine enthusiasm and sincere service, looking forward to cooperating with you and become your business partner.

GHS VINA CO .LTD

OUR EXPERIENCE

- **Director: Kim Chun Gon with 32 years of experience**
 - 1997: Founded of Hanshin Air Compressor Company
 - 2005: Established branch in Tianjin, China
 - 2009: Changed company name: from Hanshin compressor to Hanshin T&S
 - 2010: Established Hanshin Vina
 - 2013: Changed company name: from Hanshin T&S to GHS VINA CO. LTD
 - 2013: Signed an agency contract with Hanwha Techwin (before Samsung Techwin)
 - ISO 9001 certified.
 - 2019: [Designed and manufactured desiccant air dryer](#)
 - 2020: [Improved and manufactured nitrogen generator](#)
- **Technical advisor: Lee Sang Jin**
 - Expert in turbo engineer, overhaul
 - With 35 years of experience in air compressor industry
- **Engineer: Park Young Nam**
 - With 08 years of experience in turbo air compressor industry, PLC control
 - HDMI system and construction and installation
- **Technical sales : Kamg Hyoung Sik**
 - Expert in screw compressor engineer
 - With 20 years of experience in air compressor industry

Our vision

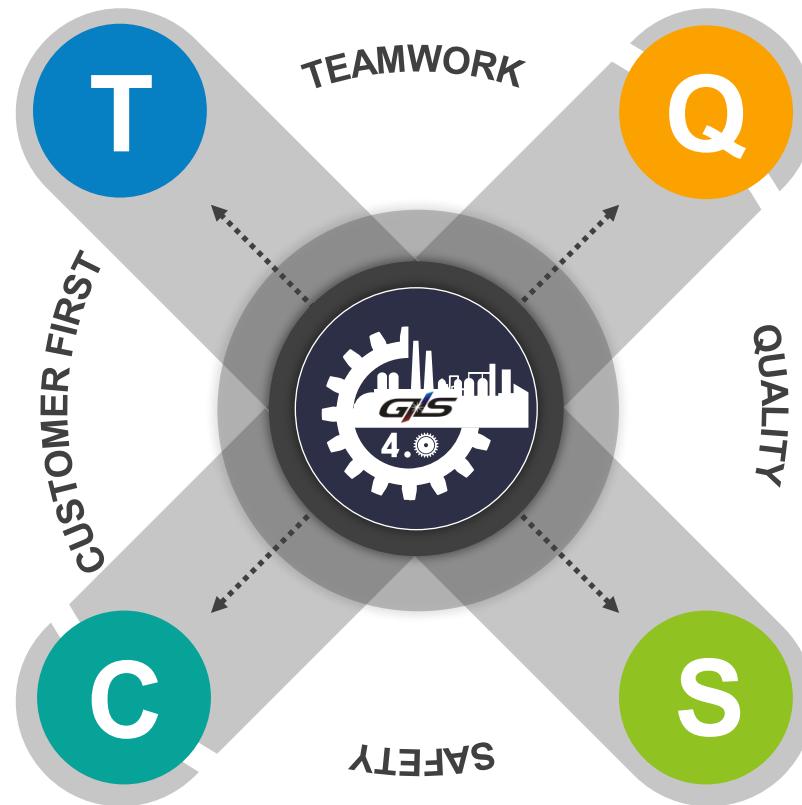

Our vision

Sustainable development - Aiming of the future

Our mission

Our mission

Conquer the belief and satisfaction of customers

Our vision

All we do – Best for you

Our mission

Balances benefits of concerned parties

ALL WE DO – BEST FOR YOU

Service

1st

After receiving the inquiries from customer . We always fulfils the customers' requests quickly within 3 hours

2st

Dealing with problems of customers in Viet Nam within 7 hours.

3st

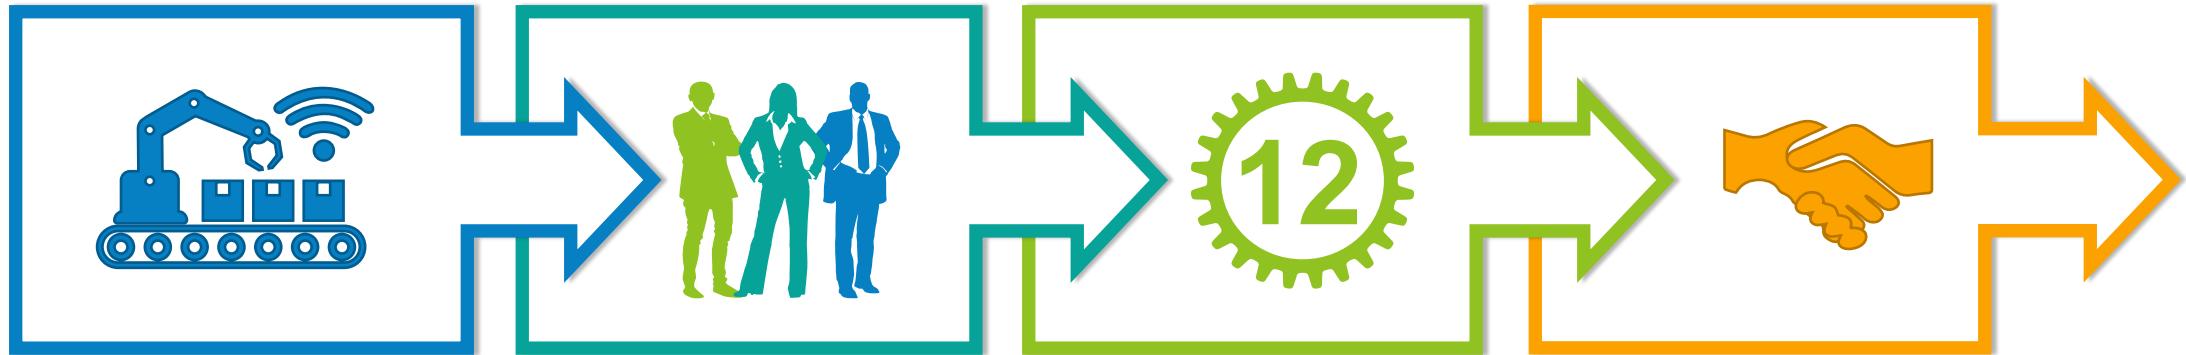

Spare parts shall be provide by GHS VINA within 3 hours . If the problems of machine caused by quality of machine and spare parts

4st

24 hours on-line service available, Well-trained engineers available to consult the customers

ALL WE DO – BEST FOR YOU

Our strengths

1st

Technological innovation and business model innovation advantages, products comprehensive competitiveness.

2st

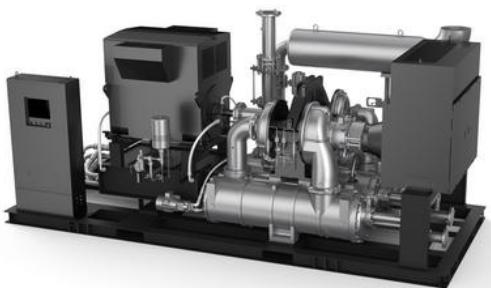

The core team has rich experience and complementary capabilities.

3st

12 years accumulation of deep understanding of the market, accurate market positioning, good industry reputation.

4st

The human resource training support, technical and specialist knowledge when becoming a partner of GHS VINA co ., Ltd

CORE PRODUCTS

Air compressor

- Direct driven screw compressor
- Combine screw compressor
- Customized pressure screw air compressor
- Permanent magnet variable frequency screw compressor
- Low pressure screw air compressor
- Two stages energy saving compressor
- Oil free screw air compressor

Screw vacuum pump

GHV series screw vacuum pump body adopts BS new body. New screw line design, permanent - magnet structure, improve performance. Stable and efficient, suitable for various complex working conditions. New design, better performance.

Oil free screw blower

This series of blowers are mainly designed for sewage treatment, power, pneumatic conveying and other industries. This new structure and design concept is mainly characterized by high efficiency, energy saving, low noise, gas transmission without oil, good tightness, long continuous operation cycle, convenient installation and maintenance.

Cooling tower

250KW~1500 KW (Oil free)

Air dryer

- Refrigerated compressed air dryer
- Heatless desiccant air dryer
- Heater external purge air dryer
- Heater external blower air dryer

Turbo compressor

- 100% oil-free compressed air without any contamination: ISO 8573-1 class 0 certification.
- High efficiency oriented components and low maintenance design will provide customers with lower life-cycle cost.
- All-in-one package all the components mounted on the base frame.
- Using three dimensional design system to eliminate potential design flaws in the design phase.
- Through quality control system in every single process to get rid of any risks.

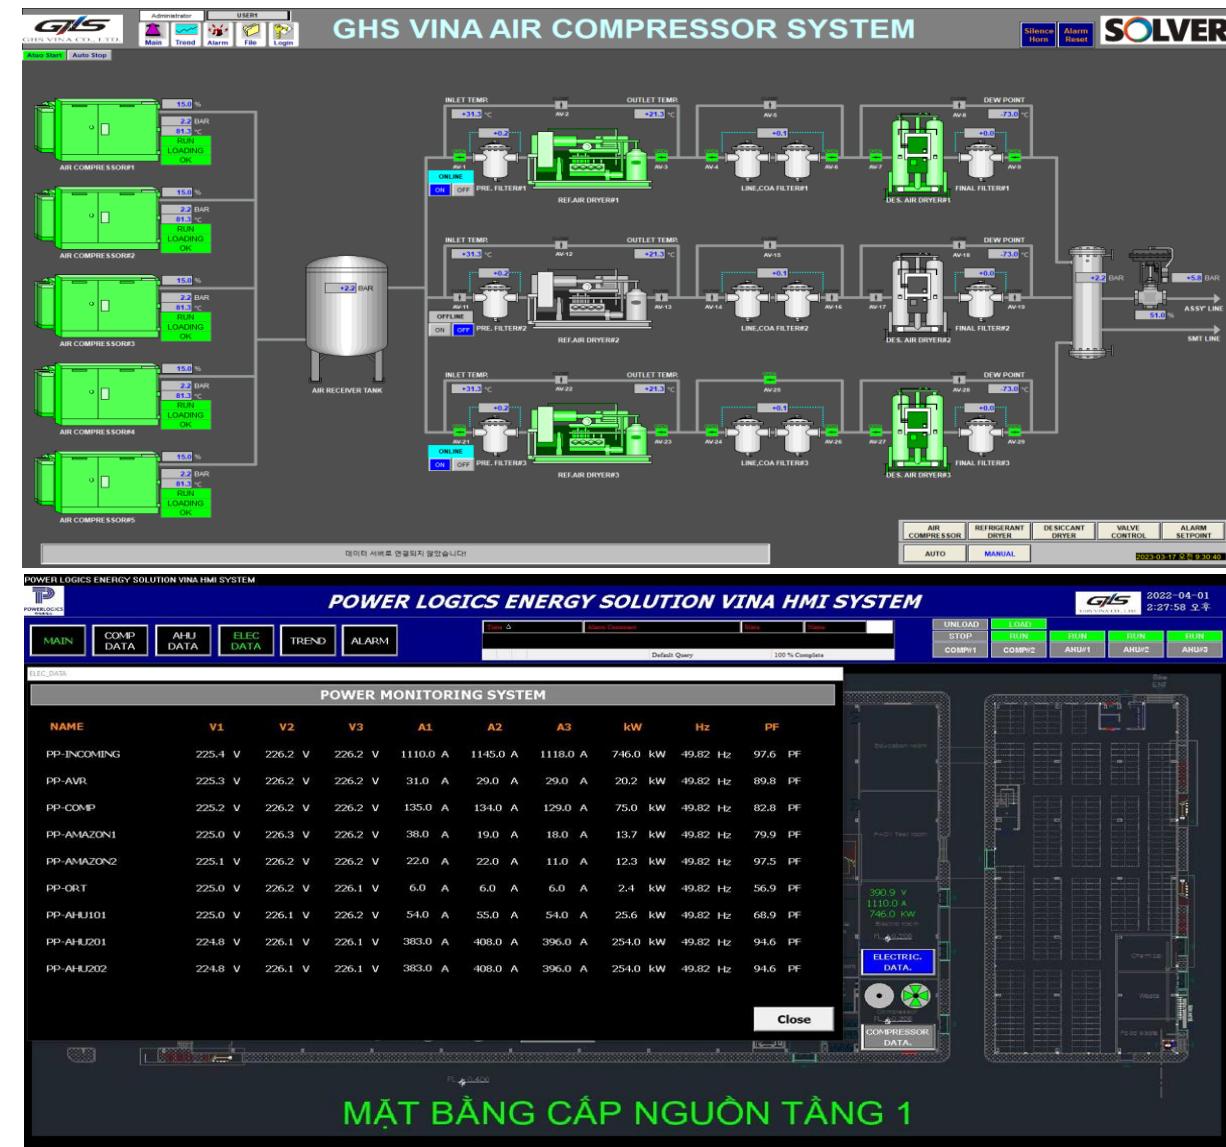

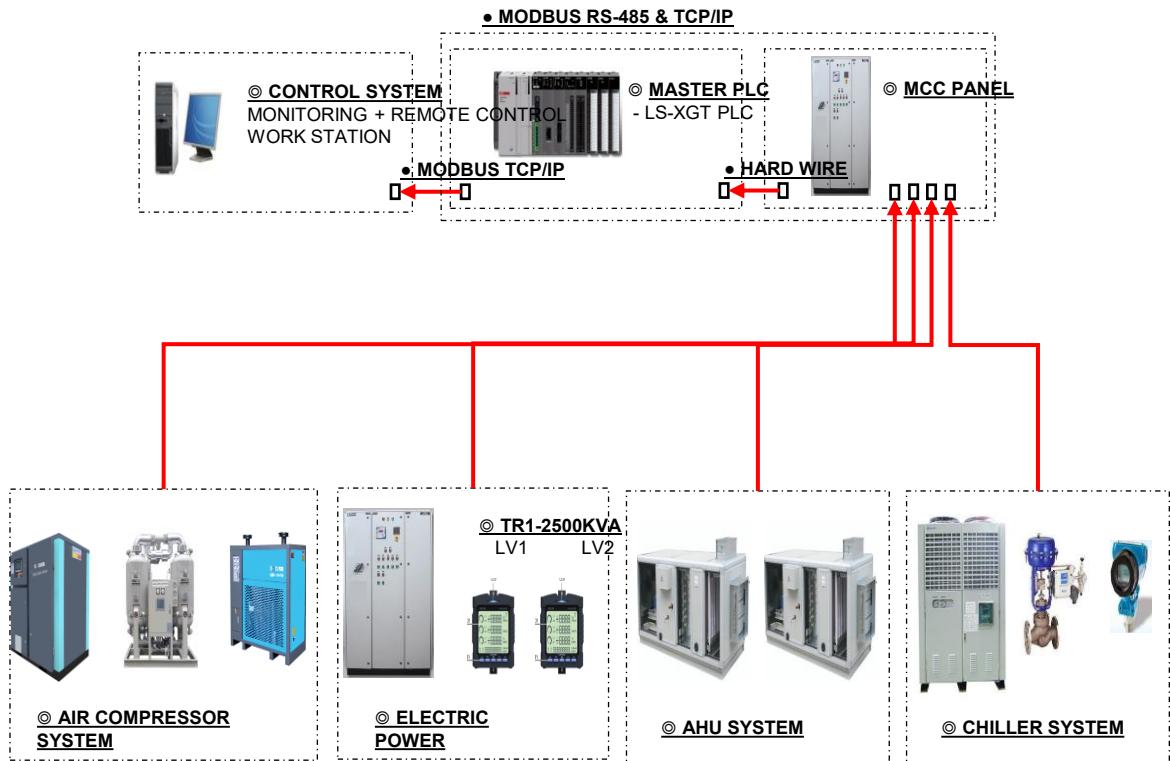

Nitrogen generator

- Modular nitrogen generator
- Twin tower nitrogen generator

Water pump, HDMI control panel

Base on customers need

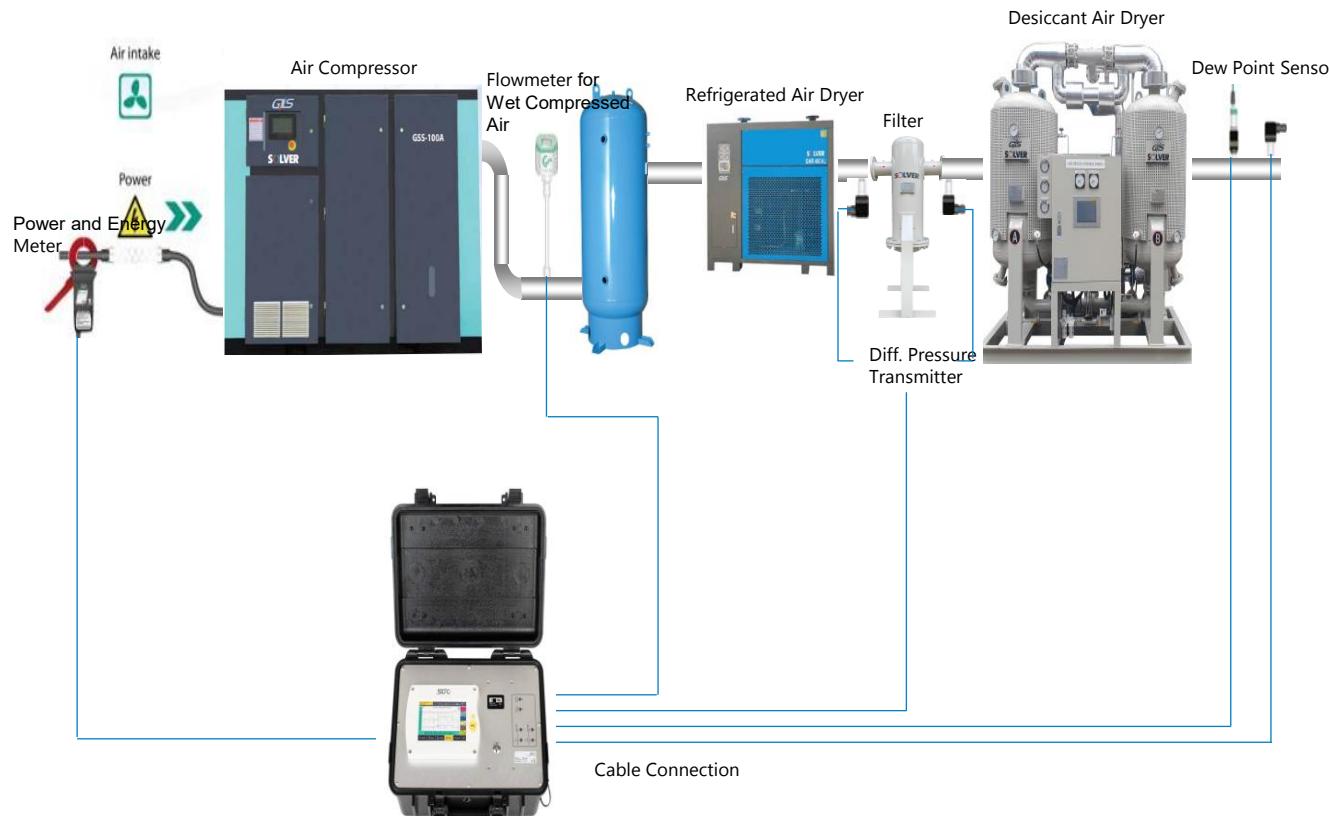

UTILITY SCADA SYSTEM

ALL WE DO – BEST FOR YOU

COMPRESSED AIR FLOW AND QUALITY MEASUREMENT

Expected benefits from air compressor efficiency diagnosis

- Compressed air is actually a very expensive power source.
- Decreased air compressor efficiency ultimately causes energy loss and increased costs. Customized pressure screw air
- Flow measurement is essential for diagnosing the efficiency of an air compressor.
- Energy Saving & Cost Saving can be realized through air compressor efficiency and compressed air equipment diagnosis.
- By reducing carbon emissions by realizing energy savings through diagnosing and improving air compressor efficiency and improving facility structure, we can achieve the effect of contributing to the environment improvement field among ESG management fields.

Our Major Projects

To improve service quality and make a difference compared to competitors in the air dryer and air compressor market, GHS Vina Co., Ltd, we always focus on investing in human resource development with specialized knowledge and well trained, the complexity of the air dryer and compressor industry fields require technicians to always update new knowledge to be able to handle and solve problems arising in customer device use process. Technical training activities are carried out by GHS Vina to support the technical improvement of the technical staff annually.

OUR PROJECTS SUPPLIED OIL FREE SCREW COMPRESSOR

01) Supply more than 100 units of 3000hp for(SEV, SEVT, SDV, SEMV) project

Hanwha security: 02 units of SM 2100 300HP (2018)

Hanwha Aero Engine: 02 units of SM 2100 300HP (2018)

PV TEX: 03 units of 4,000HP

Korea Zinc: 02 units of TURBO 730KW

HITACHI 430KW (GHS VINA CO. LTD supplied)

(Hanwha Power contract, installation, construction, maintenance GHS VINA performance)

02) Household electrical appliances branch of Samsung electronics: 02 units of KOBELCO OILFREE 530 KW (2016)

03) Crucial tec: 01 unit of OIL FREE 50HP (2014)

04) Heesung electronics: 02 units of OIL FREE 200HP and 02 units of OIL INJECTION 200HP (2017)

05) Pangrim: 02 units:TURBO 900HP (2017) and 01 more unit (2020)

06) Whall vina: 03 units of TURBO 600HP (2018)

07) Namuga: 03 units of TURBO 450HP, 01 unit: 900HP and 01 unit: 700HP (2019)

08) NARE SUNHOUSE: OIL FREE SCREW 300HP (used machine)

09) Partron: 02 units of TURBO 450HP (2019)

10) POWER LOGICS: TURBO 1200HP (2020)

11) For other OIL INJECTION SCREW performance, refer to the customers.
